A group of five friends - (from left) Mr Leonard Yeo, Mr Rawwinton Tan, Mr Sivakumar Palaniappan, Ms Mabel Chew and Mr C.J. Lee - developed the app to help reallocate delivery routes to volunteers from Food from the Heart. It was one of eight winners at the GeoHackathon held earlier this month. -- PHOTO: UP SINGAPORE

Establishing Key Knowledge Clusters

"We will need to make full use of ICT to improve business efficiency and public services, and to protect our people and our country. We will establish Centres of Excellence for key engineering knowledge clusters..... We are in the process of establishing other Centres of Excellence in geospatial information science and cyber security."

Teo Chee Hean Deputy Prime Minister, Committee of Supply, 2016

Deeping Geospatial Capabilities thru Geospatial Centre of Excellence

Provide professional expertise to agencies on key geospatial projects

Aggregate GIST demand from agencies, prioritise and pace projects

Invest/Conduct R&D to build cutting-edge geospatial expertise & deploy innovative solutions Formulate resourcing strategies develop and implement talent strategies of GIST professionals

Services

GIS System / Application Design, Development & Management

Geospatial Data & Database Management

Mapping & Remote Sensing

Geospatial Modelling & Analysis

Desired Outcomes:

World-class geospatial capabilities

Greater adoption of GIST to improve business processes

A geo-equipped Public Service
